DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, 3, 4, 6, 7, 9, 10, 12, 13 and 15, drawn to a method of cleaving a 13-hydroperoxide of linoleic or α -linoleic acid, classified in class 435, subclass 136.
- II. Claim 2, 5, 8, 11 and 14, drawn to a method of preparing n-hexanal, 3-(Z)-hexen-1-al, 2-(E)-hexen-1-al or their corresponding alcohols, classified in class 435, subclass 136.

For each of inventions I and II above, restriction to one of the following is also required under 35 USC 121. Therefore, election is required of one of inventions I and II and one of inventions (A)-(E). The claims will be examined to the extent that they read on the elected group.

- (A). SEQ ID NO: 1 (corresponding to claims 1-3),
- (B). SEQ ID NO: 2 (corresponding to claims 4-6),
- (C). SEQ ID NO: 3 (corresponding to claims 7-9),
- (D). SEQ ID NO: 4 (corresponding to claims 10-12),
- (E). SEQ ID NO: 6 (corresponding to claims 13-15),

The inventions are distinct, each from the other because of the following reasons:

Inventions (A)-(E) are structurally unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, represent structurally different and independent polypeptides.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different methods comprise different steps, utilize different substrates and result in different products.

Because these inventions are distinct for the reasons given above and the search required for Group I and II and A through E are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37CFR 1.17(i).
